

## A survey on quality of care in connection with IVF/insemination treatment

### The National Quality Register for Assisted Fertilization - Q-IVF

IVF clinics in Sweden run a quality register jointly and in collaboration with SKR (Swedish Association of Local Authorities and Regions). The purpose of the register is to follow up on medical and patient-perceived quality in order to improve care and treatment and also be able to compare the results.

In collaboration with Q-IVF, a survey is now being carried out at the country's IVF clinics during three months. The results of the patient's experience of care and treatment will then be compiled and included in the national quality register. Your views will also be the basis for improvement work at your own clinic. Participation is voluntary and you can cancel your participation right up until you complete the survey.

### How the study is carried out.

- ✚ The questionnaire is answered via the Internet.
- ✚ After the egg retrieval/insemination, you will receive an email from your clinic via the company IMPROVEIT, with a link to a web survey. After about a week, the link will be closed, which is why it is important that you respond as quickly as possible.

The questionnaire consists of approximately 40 questions which, among other things, concern care, accessibility and information. You will also value how important the various questions are to you. It takes an estimated 7-10 minutes to answer the survey.

**The questionnaire is treated confidentially.** The answers you provide are de-identified, which means that your identity cannot be discerned, neither during the data processing nor in the results.

**If you have any questions about the survey**, please contact Improveit.

Phone: 035-22 70 50 or email [projekt@improveit.se](mailto:projekt@improveit.se)

- Responsible for the National Quality Register Q-IVF is Professor Christina Bergh, Sahlgrenska University Hospital, tel. 031-342 10 00.
- The survey is carried out in collaboration with IMPROVEIT. Email: [projekt@improveit.se](mailto:projekt@improveit.se) website [www.improveit.se](http://www.improveit.se)
- Feel free to look at Q-IVF's website [www.qivf.se](http://www.qivf.se)

### **Your views are valuable**

Believing is not the same as knowing! Your experiences are important to us and we would be grateful if you could help us by completing the survey. If you like to participate in the survey, please enter your email address on the next page and then leave it to the clinic.

I/we want to participate in the survey on patient-perceived quality of care.

*Please text clearly.*
